## SUMMARY

I am glad and feel privileged to do my superspeciality course Urology and Andrology from Meenakshi mission hospital and research Centre located in Madurai, Tamil Nādu. During my training, i was exposed and got hands on in endourology, pediatric urology, Urogynecology, reconstructive urology, uro-oncology andrology and renal transplantology. We have well equipped set up and support of other aligned specialties like radiology, nuclear medicine and all other departments which reinforced our learning.

Now, my objective and focus are to establish myself as a professional Urologist and Andrologist. To pioneer in Endourology and Minimal Access Surgery with special interest in Uro-Oncology and renal transplantation. Since, I also have special interest in academics would also like to focus on academics along with being a good clinician with the evolving recent advances and trends.

## SKILLS

- Acquired hands on training and doing microvascular Uro-Andrological procedures
- Well versed with all Endourology, Andrology and basic lap surgery

- and bladder repair procedures.
- Acquired hands-on USG training with regard to kidney, ureter and bladder during my residency and performing in my day-to-day procedures.
- Adequate exposure in laparoscopy and Robotic surgeries during my residency.
- Clear understanding of andrology, its procedure implications and its management focusing on men's sexual health (Management of priapism, male infertility issues, erectile dysfunction etc.)
- Part of transplant team in more than 200 Renal transplants (live and cadaveric) coordinating with both donors and recipients
- Adequate skill in performing all endourological procedures (URSL, RIRS, PCNL, TURP etc.)
