## **PROFESSIONAL SUMMARY**

A well-trained post graduate passed out of esteemed government institute, Mandya Institute of Medical Sciences, Mandya.

During my post-graduation I have had the fortune to work in a well-organized department and was able to see OPD, wards, Emergency and ICU with various medical conditions.

I also had the opportunity to work in NIMHANS, Jayadeva Institute of Cardiology and learn specialty subjects.

I have handled and treated COVID 19 patients in OPD, Wards, ICU during the first, second and third wave of pandemic in Mandya.

I could complete my senior residency from the prestige institute, BMCRI and procure good clinical as well as teaching skills.

A compassionate doctor who always considers the needs and comforts of my patients and work to ensure that they have the best possible outcome.

## **SKILLS-**

1.Proficiently diagnose, manage and counsel patients with simple and complex medical conditions in outpatient, inpatient, emergency and ICU.

2.Managing ICU patients and good knowledge about ventilatory settings, ICU protocol

3.various procedures like

- Endotracheal intubation for mechanical ventilation
